

STARK

STRONGLY CHOSEN

SINCE 1980

STARK SPINNER ROTATING DEVICE

SWEEPING

- **STARK's patented sweeping rotation system.**
- **Improves the usability of the bucket sweeper significantly.**
- **Minimizing reversing increases safety.**

- Sweeping is driver-friendly and cost-effective. With the SPINNER, the best work result is achieved regardless of the direction of movement.
- SPINNER is suitable for use with STARK KAH ST and Tornado bucket sweepers.
- Spinner can be mounted to STARK bucket sweepers afterwards.
- The Spinner provides limitless rotating.
- The gear of the turning device is protected by a friction plate in case of collisions.
- PIN FLOAT technology enables the floating without the base machine controlling the Bucket sweeper.
- In addition to hydraulics, either electricity or water can be passed through without any changes to the sweeper.
- When brushing curbs or walls, you don't need a side brush.
- Thanks to its robust structure and high-quality components, it is effective, reliable, and long-lasting attachment.
- The STARK FIT bolt-on adapter is quick and easy to change.

STANDARD EQUIPMENT

- ▶ STARK FIT
- ▶ PIN FLOAT

OPTIONAL EQUIPMENT

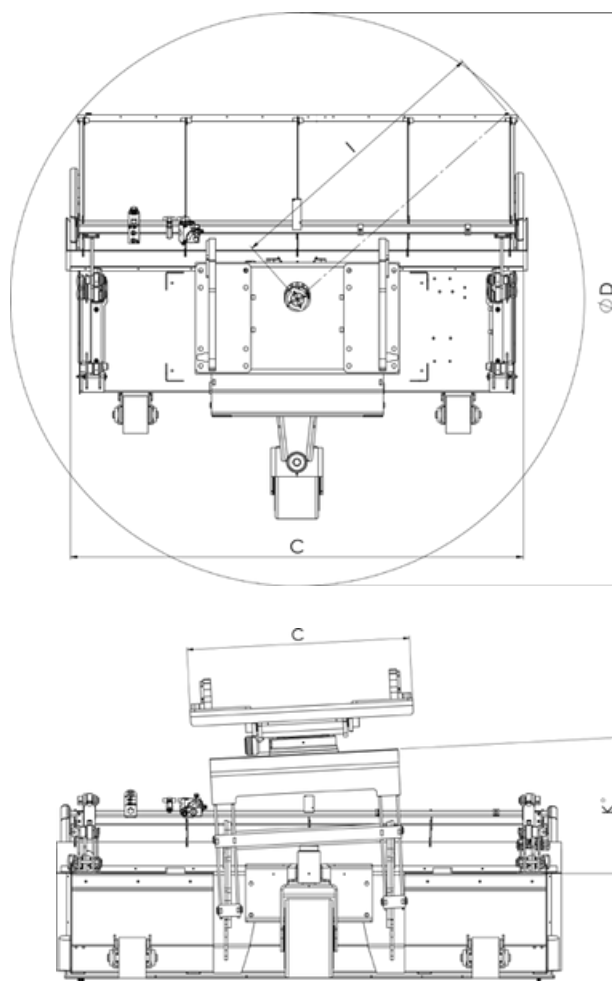

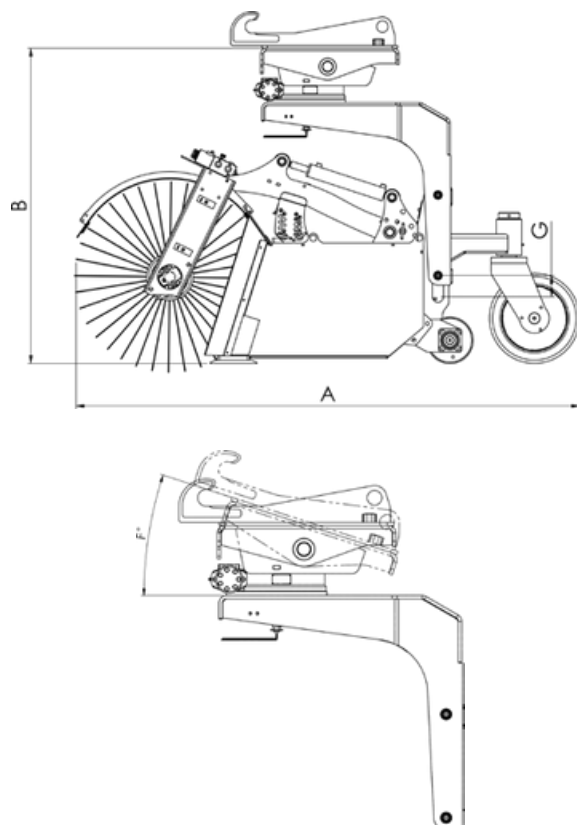

- ▶ Rotating support wheel
- ▶ Electric valve
